November 12, 2019

To the Members of the Board of Trustees and Residents of the Coachella Valley:

State law requires special districts to annually publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial statements of the Coachella Valley Mosquito and Vector Control District (“the District”) for the fiscal year ended June 30, 2019.

This report consists of management’s representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District’s assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District’s financial statements in conformity with GAAP. As the cost of internal controls should not outweigh their benefits, the District’s comprehensive framework of internal controls has been designed to provide reasonable, rather than, absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District’s financial statements have been audited by Fedak & Brown LLP, Certified Public Accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District, for the fiscal year ended June 30, 2019, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District’s financial statements, for the fiscal year ended June 30, 2019, were fairly presented in conformity with GAAP. The independent auditor’s report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District’s MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The Coachella Valley Mosquito and Vector Control District was formed March 12, 1928 under Section 2000 et. seq. of the California Health and Safety Code. It is a special district established by the Riverside County Board of Supervisors primarily for controlling eye gnats. In 1951, the District added a program for mosquito control and in 1995 expanded to a full vector control agency.

DR. DOUGLAS KUNZ Palm Springs | ISIAH HAGERMAN Rancho Mirage | JEREMY WITTIE General Manager

Profile of the Government, continued

The District is one of the largest mosquito and vector control districts in California. It serves the Coachella Valley, population approximately 430,000, and has a District boundary encompassing 2,400 sq. miles. The operating budget is \$11 million, funding comes from property taxes and a Benefit Assessment. The District employs 58 full-time staff, increased with seasonal staff beginning early summer. The District has been at its present purpose-built location in Indio, California since 2001.

The District is governed by a Board of Trustees comprised of 11 members. Each of the nine cities of the Coachella Valley appoints a member and the County of Riverside appoints two members. The General Manager, Legal Counsel and District Auditor report to the Board. The Board meets monthly, every second Tuesday, at 6:00pm.

Factors Affecting Financial Condition

The Coachella Valley is a national destination for tourists and conventions, the population is supplemented each year with seasonal residents returning to their second homes. The area is also an important national retirement center, and, accordingly, a large part of the local economy caters to an aging population such as the health care industry, retail, restaurants, and golf courses. The Coachella Valley's economy is based on providing services to tourists, conventions, seasonal second homeowners, and retirees. A significant proportion of the job base is in retail, consumer services, hotels, amusement, and construction. Agriculture is also a significant player in the labor market.

The Coachella Valley's employment is made up of 17% accommodation and food services, 14% in retail, and 12% in healthcare. In 2008 before the recession, construction accounted for 10.5% of the total workforce in 2015 it was 5.1%. During the recession and resulting slowdown in the economy, the region saw a decline in construction projects and falling demand in the hotel and amusement sector. This resulted in a decline in employment in these sectors, the unemployment rate in Riverside County rose to 14.7 % in 2010, but has since recovered to 4.5%, as of June 2019.

The District's revenue is closely associated with the local real estate market which continues to show positive growth from higher house prices and growing construction. Forecasts show the real estate revenues are continuing to grow in the short term. The District receives its revenue from property taxes, redevelopment agency tax increment, and a Benefit Assessment. In FY 2017-2018 property tax receipts increased 4.0 % over the previous year and 4.8 % in FY2018-2019. In FY2019-2020 property tax receipts are forecast to rise by 3.0 %.

For FY 2018-2019 the property tax increment was 5.2% higher than the prior year, property tax revenue for the same period rose because of higher property values. The Benefit Assessment rate was increased from \$10.21 to \$12.49 per single family equivalent (SFE), giving a total receipt of \$1.9 million in FY 2018-2019, an increase of 22% over prior year.

Short-term financial planning

The District receives the majority of its funding from the property taxes and benefit assessment, collected by the County of Riverside. These funds do not reach the District until January, with a 10% advance on property taxes in December. There is a six-month delay in receiving revenue from the beginning of the fiscal year. The District Fund Balance Policy recommends maintaining a minimum working capital Reserve for Operations equal to \$4,500,000. Historically November is when expenses exceed revenue by the most, based on budget estimates for FY2019-20 expenses will exceed revenue by almost \$4 million at the end of November 2019.

Long-term financial planning

In Fiscal Year 2018-19 the District is implemented a capital plan reserve study to fund future repair and replacement of facility components. The capital plan includes an inventory of District facilities, identifying component wear, and age. The study looks forward 30 years, projecting expenses, and recommending a funding plan. In FY 2008-09 environmental remediation work was completed at the old District headquarters in Thermal, CA which involved paving the whole area with asphalt. In ten years this has to be repaved, designated funds have been set aside on an annual basis, to pay for this remediation liability. In FY 2019-20 the repaving work will take place.

Emergency Service Reserve

The Coachella Valley Mosquito-borne Virus Surveillance and Response Plan is based on the California Mosquito-borne Virus Surveillance and Response Plan. The plan describes an enhanced surveillance and response program for the Coachella Valley dependent on the level of risk of mosquito-borne virus transmission to humans, and identifies response levels as normal season, emergency planning, and epidemic, depending on risk assessment factors. The amount of \$4,103,640 designated for the Public Health Emergency Reserve, is based on the response level for an epidemic. Funding required is for contract with the aviation companies, that use twin turbine aircraft, available for spray operations, public health emergencies and emergency responses over the populated areas - at the cost that includes control products (\$1.78/acre), and cost of spraying (\$.83/acre), for a minimum of 130,000 acres, and a minimum of three flights, not to exceed 10 flights, over the Coachella Valley.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2018. This was the tenth consecutive year that the District has achieved this prestigious national award. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting. In order to be awarded a Certificate of Achievement, the District has to publish an easily readable and efficiently organized CAFR, and satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the District staff. We would like to express our appreciation to all employees of the District who assisted and contributed in the preparation of this report. Credit must also be given to the Board of Trustees, particularly the Finance Committee, for their unfailing support in maintaining the highest standards of professionalism in the management of the District’s finances.

Respectfully submitted,

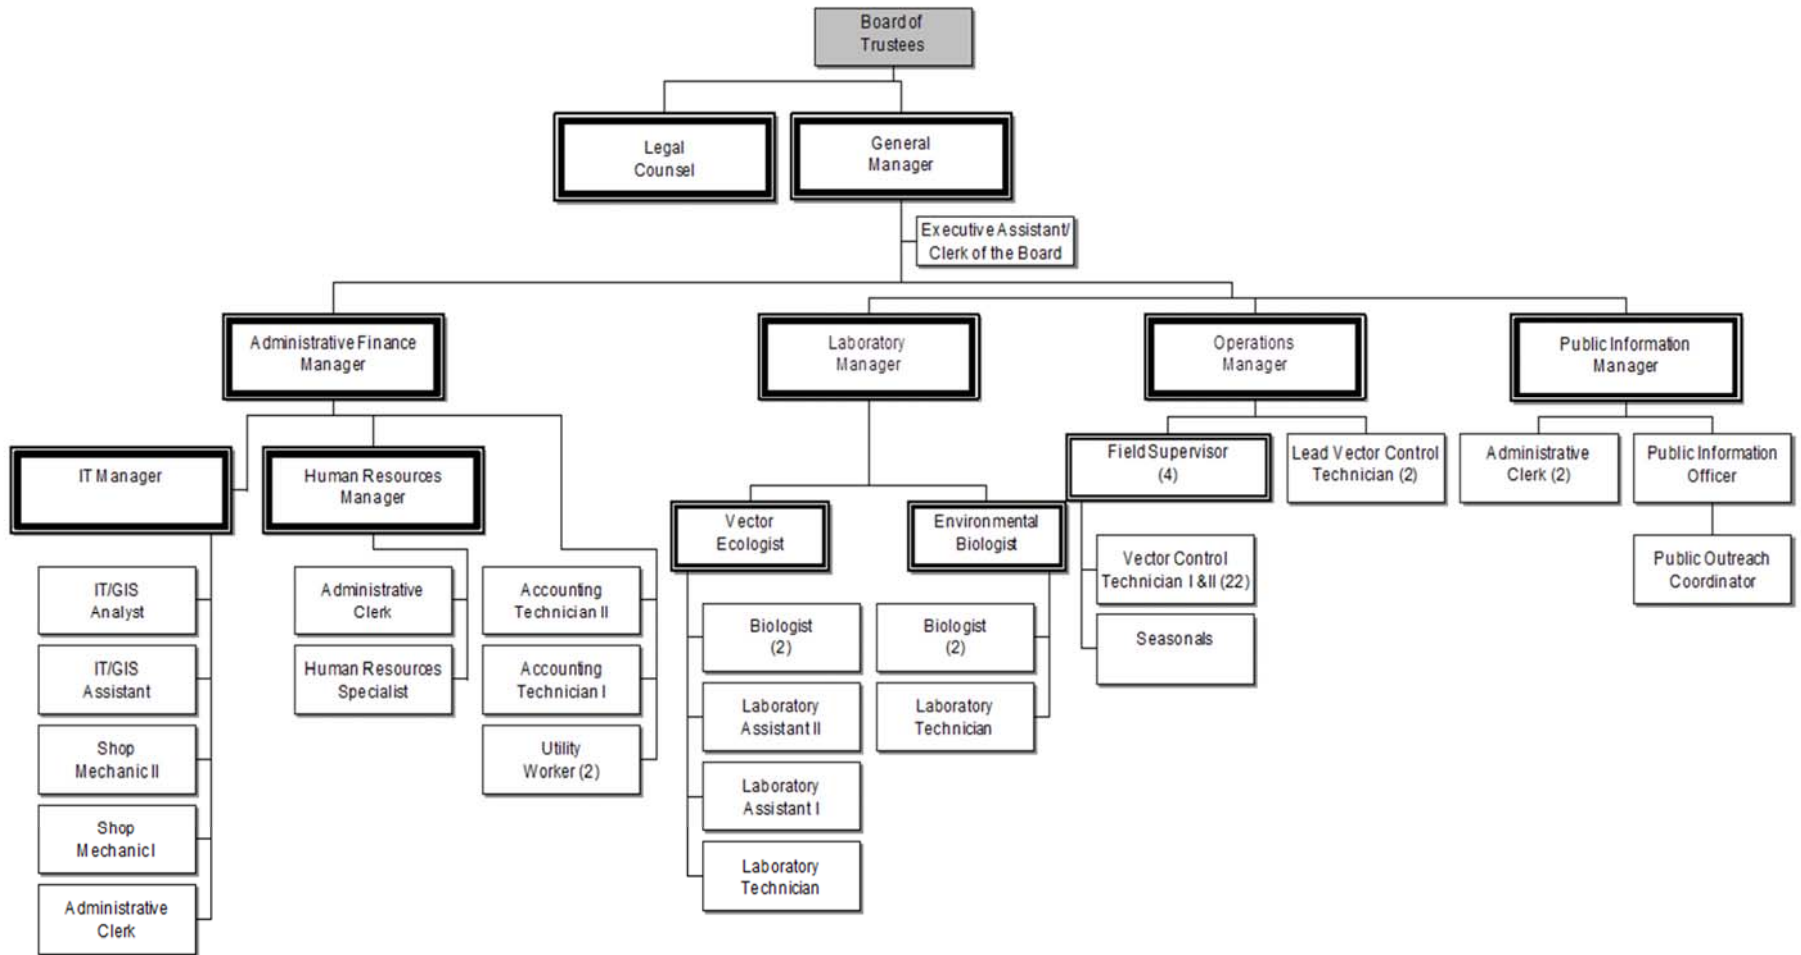

Jeremy Wittie, MS

Independent Auditor's Report

Board of Trustees
Coachella Valley Mosquito and Vector Control District
Indio, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities of Coachella Valley Mosquito Vector Control District (District) as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of Coachella Valley Mosquito Vector Control District as of June 30, 2019 and 2018, and the respective changes in financial position for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Independent Auditor's Report, *continued*

Emphasis of a Matter

As discussed in Note 10 to the financial statements, in fiscal year 2019, the District identified that its calculation for the pension related deferred outflow for net change in employers proportion and deferred inflow for the net proportionate share of contributions, respectively were understated in the prior year. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 9 through 15 and the required supplementary information on pages 56 through 61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section on pages 1 through 6 and the statistical section on pages 62 through 78 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audits of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated November 12, 2019, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance. This report can be found on pages 79 and 80.

Coachella Valley Mosquito and Vector Control District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2019 and 2018

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Coachella Valley Mosquito and Vector Control District (District), provides an introduction to the financial statements of the District for the fiscal years ended June 30, 2019 and 2018. We encourage readers to consider the information presented here with additional information that we have furnished in the accompanying basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position increased by 1.00% or \$214,434 to \$21,616,308 in fiscal year 2019, as a result of operations and the effect of a prior period adjustment in the amount of \$231,547. Please see Note 10 to the basic financial statements for further discussion. In the fiscal year 2018, the District's net position increased by 3.23% or \$668,747 to \$21,401,874, which is comprised of an increase in operations of \$363,723 and an increase from a prior period adjustment in the amount of \$305,023 due to the implementation of GASB 75.
- The District's total revenues from all sources increased 8.10% or \$813,149 to \$10,849,764 in fiscal year 2019. Program revenues increased 21.81% or \$355,311 to \$1,984,134. General revenues increased 5.45% or \$457,838 to \$8,865,630. In fiscal year 2018, the District's total revenues from all sources increased 6.58% or \$619,435 to \$10,036,615. Program revenues increased 12.15% or \$176,444 to \$1,628,823. General revenues increased 5.56% or \$442,991 to \$8,407,792.
- The District's total expenses increased by 9.95% or \$962,439 to \$10,635,330 in fiscal year 2019. In fiscal year 2018, the District's total expenses increased by 2.06% or \$195,441 to \$9,672,891.

Using This Financial Report

This annual report consists of a series of financial statements. The Statements of Net Position and Statements of Activities provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the District's investments in resources (assets), deferred outflows of resources, the obligations to creditors (liabilities) and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statements of Activities. This statement measures the success of the District's operations over the past year and can be used to determine the District's net operating reserves and credit worthiness.

District Activities

The District is an independent special district, organized to specifically control mosquitoes, but has expanded service to involve other vector control activities. The District serves an area of approximately 2,400 square miles and 430,000 residents. The District utilizes an integrated vector management approach consisting of surveillance, sanitation, education and the judicious use of insecticides and rodenticides. The District also has a public education responsibility that serves the District's residences and provides technical support to other public service agencies.

Coachella Valley Mosquito and Vector Control District
Management's Discussion and Analysis, continued
For the Fiscal Years Ended June 30, 2019 and 2018

Government-wide Financial Statements

Statements of Net Position and Statements of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statements of Net Position and the Statements of Activities report information about the District in a way that helps answer this question. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes in them. Think of the District's net position – the difference between assets plus deferred outflows of resources, less liabilities, and deferred inflows of resources – as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in the District's property assessment charge to assess the *overall health* of the District.

Governmental Funds Financial Statements

Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheets and the governmental fund statements of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 24 through 55.

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information and supplementary information concerning the District's budgetary information and compliance.

Government-wide Financial Analysis

Condensed Statements of Net Position

	<u>2019</u>	<u>As Restated 2018</u>	<u>Change</u>	<u>2017</u>	<u>Change</u>
Assets:					
Current assets	\$ 15,309,779	14,939,343	370,436	14,474,222	465,121
Capital assets, net	10,624,757	10,725,824	(101,067)	10,881,505	(155,681)
Total assets	<u>25,934,536</u>	<u>25,665,167</u>	<u>269,369</u>	<u>25,355,727</u>	<u>309,440</u>
Deferred outflows of resources	<u>1,455,068</u>	<u>1,855,470</u>	<u>(400,402)</u>	<u>1,086,661</u>	<u>768,809</u>
Liabilities:					
Current liabilities	840,037	822,808	17,229	592,880	229,928
Non-current liabilities	4,814,653	5,138,078	(323,425)	4,887,163	250,915
Total liabilities	<u>5,654,690</u>	<u>5,960,886</u>	<u>(306,196)</u>	<u>5,480,043</u>	<u>480,843</u>
Deferred inflows of resources	<u>118,606</u>	<u>157,877</u>	<u>(39,271)</u>	<u>229,218</u>	<u>(71,341)</u>
Net position:					
Net investment in capital assets	10,624,757	10,725,824	(101,067)	10,881,505	(155,681)
Unrestricted	10,991,551	10,676,050	315,501	9,851,622	824,428
Total net position	<u>\$ 21,616,308</u>	<u>21,401,874</u>	<u>214,434</u>	<u>20,733,127</u>	<u>668,747</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows of resources by \$21,616,308 and \$21,401,874 as of June 30, 2019 and 2018, respectively.

A large portion of the District's net position (49% and 50% as of June 30, 2019 and 2018, respectively) reflects its investment in capital assets (net of accumulated depreciation); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services of the District; consequently, these assets are *not* available for future spending.

At the end of fiscal years 2019 and 2018, the District's unrestricted net position was \$10,991,551 and \$10,676,050, respectively that may be utilized in future years. (See Note 8)

Condensed Statements of Activities

Coachella Valley Mosquito and Vector Control District
Management's Discussion and Analysis, continued
For the Fiscal Years Ended June 30, 2019 and 2018

Government-wide Financial Analysis, continued

The statements of activities show how the District's net position changed during the fiscal years. In fiscal year 2019, the District's net position increased by 1.00% or \$214,434 to \$21,616,308, due as a result of operations and the effect of a prior period adjustment in the amount of \$231,547. Please see Note 10 to the basic financial statements for further discussion. In the fiscal year 2018, the District's net position increased by 3.23% or \$668,747 to \$21,401,874, which is comprised of an increase in operations of \$363,723 and an increase from a prior period adjustment in the amount of \$305,023 due to the implementation of GASB 75.

	<u>2019</u>	<u>As Restated 2018</u>	<u>Change</u>	<u>2017</u>	<u>Change</u>
Program revenues:					
Charges for services –					
special benefit assessment	\$ 1,984,134	1,628,823	355,311	1,452,379	176,444
Total program revenues	<u>1,984,134</u>	<u>1,628,823</u>	<u>355,311</u>	<u>1,452,379</u>	<u>176,444</u>
General revenues:					
Property taxes	4,027,484	3,883,367	144,117	3,733,700	149,667
Redevelopment agency –					
property tax increment	4,425,927	4,164,357	261,570	3,990,874	173,483
Interest earnings	308,476	153,373	155,103	83,241	70,132
Rental revenue	17,370	16,783	587	16,295	488
Other revenue	86,373	189,912	(103,539)	140,691	49,221
Total general revenues	<u>8,865,630</u>	<u>8,407,792</u>	<u>457,838</u>	<u>7,964,801</u>	<u>442,991</u>
Total revenues	<u>\$ 10,849,764</u>	<u>10,036,615</u>	<u>813,149</u>	<u>9,417,180</u>	<u>619,435</u>

In fiscal year 2019, the District's total revenues from all sources increased 8.10% or \$813,149 to \$10,849,764. Program revenues increased 21.81% or \$355,311 to \$1,984,134, primarily due to an increase in special assessments. General revenues increased 5.45% or \$457,838 to \$8,865,630, primarily due to increases of \$261,570 in property tax allocations, \$155,103 in interest earnings and \$144,117 in property taxes which were offset by a decrease of \$103,539 in other revenues.

In fiscal year 2018, the District's total revenues from all sources increased 6.58% or \$619,435 to \$10,036,615. Program revenues increased 12.15% or \$176,444 to \$1,628,823, primarily due to increases in special assessments. General revenues increased 5.56% or \$442,991 to \$8,407,792, primarily due to increases of \$323,150 in property tax allocations and \$70,132 in interest earnings.

Management's Discussion and Analysis, continued
For the Fiscal Years Ended June 30, 2019 and 2018

Total Expenses

	<u>2019</u>	<u>As Restated 2018</u>	<u>Change</u>	<u>2017</u>	<u>Change</u>
Expenses:					
Mosquito and vector control operations:					
Salaries and wages	\$ 4,923,063	4,644,134	278,929	4,555,260	88,874
Employee benefits	2,572,204	2,044,486	527,718	1,741,684	302,802
Field operations	1,273,796	1,208,839	64,957	1,442,426	(233,587)
Materials, services and supplies	908,054	804,646	103,408	720,696	83,950
Insurance	236,018	151,806	84,212	239,220	(87,414)
Contract agreements	90,917	120,000	(29,083)	140,754	(20,754)
Depreciation	631,278	698,980	(67,702)	637,410	61,570
Total expenses	\$ 10,635,330	9,672,891	962,439	9,477,450	195,441

In fiscal year 2019, total expenses increased by 9.95% or \$962,439 to \$10,635,330, primarily due to increases of \$527,718 in employee benefits, \$278,929 in salaries and wages, \$103,408 in materials, services and supplies, \$84,212 in insurance expenses, and \$64,957 in field operations expenses, which were offset by a decrease of \$67,702 in depreciation expense as compared to the prior year.

In fiscal year 2018, total expenses increased by 2.06% or \$195,441 to \$9,672,891, primarily due to increases of \$302,802 increase in employee benefits related to pension and other post-employment benefit (OPEB) expenses, \$88,874 in salaries and wages, \$83,950 in materials, services and supplies, and \$61,570 in depreciation expense, which were offset by a decrease of \$233,587 in field operation expenses resulting from reduced chemical applications used for mosquito control compared to the prior year.

Governmental Funds Financial Analysis

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, the *unassigned fund balance* may serve as a useful measure of the government's net resources for spending at the end of the fiscal year.

As of June 30, 2019 and 2018, the District's General Fund reported a fund balance of \$14,745,356 and \$14,381,562, respectively. An amount of \$8,339,100 and \$8,803,095 as of June 30, 2019 and 2018, respectively constitutes the District's *assigned fund balance*, which is available for specific future District operations. (See Note 9 for further information on the District's fund balances)

General Fund Budgetary Highlights

The final actual expenditures for the General Fund as of June 30, 2019 and 2018, were more than budgeted by \$3,185 and less than budgeted by \$1,112,577, respectively. In fiscal year 2019, actual payroll expenditures (including salaries and employee benefits) were over budget as the actual cost of employee benefits expenditures exceeded budgeted benefits costs during the fiscal year. In fiscal year 2018, actual payroll expenditures (including salaries and employee benefits) were under budget as budgeted positions were unfilled during the fiscal year. In fiscal years 2019 and 2018, actual field operations expenditures were under budget due to reduced spray operations, respectively. In fiscal year 2019, Insurance expenditures were over budget as the actual cost of insurance exceeded budgeted costs during the fiscal year. In fiscal year 2018, Insurance expenditures were under budget due to a dividend received from the insurance provider in recognition of the District's progress in lowering compensation claims through safety initiatives. In fiscal years 2019 and 2018, capital outlay was lower than budgeted because District management decided not to proceed with relocating the District's server room.

Coachella Valley Mosquito and Vector Control District
Management's Discussion and Analysis, continued
For the Fiscal Years Ended June 30, 2019 and 2018

General Fund Budgetary Highlights, continued

Actual revenues as of June 30, 2019 and 2018, exceeded budgeted amounts by \$366,979 and \$6,108, respectively. In fiscal years 2019 and 2018, property tax and redevelopment agency tax increment are above and below budget, respectively. However, miscellaneous revenue is higher than budget because of reimbursements from California Department of Public Health for chemical control products and aerial application for the District to use in controlling the spread of invasive species *Aedes Aegypti* in the Coachella Valley. In fiscal years 2019 and 2018, interest earnings were also higher than budgeted amounts due to higher interest earnings, respectively. (See Budgetary Comparison Schedule for General Fund under Required Supplementary Information section on pages 56 and 57).

Capital Asset Administration

Changes in capital assets for 2019 were as follows:

	Balance 2018	Additions	Deletions/ Transfers	Balance 2019
Depreciable assets:				
Non-depreciable assets	\$ 417,873	7,050	-	424,923

Total capital assets, net	<u>\$ 10,725,824</u>	<u>(101,067)</u>	<u>-</u>	<u>10,624,757</u>

Changes in capital assets for 2018 were as follows:

	Balance 2017	Additions	Deletions/ Transfers	Balance 2018
Depreciable assets:				
Non-depreciable assets	\$ 417,873	-	-	417,873
Depreciable assets	<u>19,321,846</u>	<u>543,299</u>	<u>(346,055)</u>	<u>19,519,090</u>
Total capital assets	19,739,719	543,299	(346,055)	19,936,963
Accumulated depreciation	<u>(8,858,214)</u>	<u>(698,980)</u>	<u>346,055</u>	<u>(9,211,139)</u>
Total capital assets, net	<u>\$ 10,881,505</u>	<u>(155,681)</u>	<u>-</u>	<u>10,725,824</u>

At the end of fiscal year 2019 and 2018, the District's investment in capital assets amounted to \$10,624,757 and \$10,725,824, respectively (net of accumulated depreciation). This investment in capital assets includes buildings and improvements, vehicles, equipment, machinery and furniture and fixtures. (See Note 3)

Conditions Affecting Current Financial Position

Management is unaware of any conditions, which could have a significant impact on the District's current financial position, net position or operating results in terms of past, present and future.

Coachella Valley Mosquito and Vector Control District
Reconciliation of the Balance Sheet of Governmental
Type Funds to the Statement of Net Position
June 30, 2019

Reconciliation:

Fund balance of governmental funds	\$ 14,745,356
Amounts reported for governmental activities in the statement of net position is different because:	
Non-current assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds balance sheet. However, the Statement of Net Position includes those non-current assets among the assets of the District as a whole.	
are not reported in the governmental funds balance sheet.	10,624,757
Recognized OPEB related amounts are reported as deferred outflows of resources in the government-wide financial statements.	312,420
Recognized pension related amounts are reported as deferred outflows of resources are not reported in the government-wide financial statements.	1,142,648
Long-term liabilities applicable to the District are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities both current and long-term, are reported in the Statement of Net Position.	
Compensated absences	(689,035)
Net other post-employment benefits liability	(715,923)
Net pension liability	(1,585,309)
Pollution remediation obligation	(2,100,000)
Recognized OPEB related amounts are reported as deferred inflows of resources in the government-wide financial statements.	(10,720)
Recognized pension related amounts are reported as deferred inflows of resources are not reported in the government-wide financial statements.	<u>(107,886)</u>
Net position of governmental activities	\$ <u>21,616,308</u>

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies

A. Organization and Operations of the Reporting Entity

The Coachella Valley Mosquito and Vector Control District is located in Indio, California. The District was formed pursuant to Section 2200 et. Seq., of the California Health and Safety Code and formed in the State of California on March 12, 1928. The District covers a wide area of Eastern Riverside County in the Coachella Valley and includes the cities of Indian Wells, La Quinta, Palm Springs, Cathedral City, Coachella, Desert Hot Springs, Indio, Palm Desert, Rancho Mirage and portions of the areas of unincorporated territory in Riverside County. The purpose of the District is to provide operational mosquito and other vector control to protect the residents within the District's service area from mosquito-borne disease and from other disease carriers and vectors. The District is governed by a Board of Trustees, which consists of 11 members, one member from each city and two from the county-at-large.

B. Basis of Accounting and Measurement Focus

The *basic financial statements* of the District are comprised of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Government-wide Financial Statements

These statements are presented on an *economic resources* measurement focus and the accrual basis of accounting. Accordingly, all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, including capital assets, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which the liability is incurred. The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The types of transactions reported as program revenues for the District are to be reported in three categories, if applicable: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions. Charges for services include revenues from customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function. Grant and contributions include revenues restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Governmental Fund Financial Statements

These statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds. Incorporated into these statements is a schedule to reconcile and explain the differences in net position as presented in these statements to the net position presented in the Government-wide Financial Statements. The District has presented its General Fund, as its major fund, in this statement to meet the qualifications of GASB Statement No. 34.

Governmental funds are accounted for on a spending or *current financial resources* measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under modified accrual basis of accounting, revenues are recognized in the accounting period in which they become measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60-days after year-end) are recognized when due. The primary sources susceptible to accrual for the District are property tax, interest earnings, rental revenue and operating and capital grant revenues. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Coachella Valley Mosquito Vector Control District

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

B. Basis of Accounting and Measurement Focus, continued

However, exceptions to this rule include principal and interest on debt, which are recognized when due. The District reports the following major governmental fund:

General Fund – is a government’s primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund when necessary.

C. Financial Reporting

The District’s basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The District has adopted the following GASB pronouncements in the current year:

Governmental Accounting Standards Board Statement No. 83

In November 2016, the GASB issued Statement No. 83 – *Certain Asset Retirement Obligations*. This Statement (1) addresses accounting and financial reporting for certain asset retirement obligations (AROs), (2) establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs, (3) requires that recognition occur when the liability is both incurred and reasonably estimable, (4) requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred, (5) requires the current value of a government’s AROs to be adjusted for the effects of general inflation or deflation at least annually, and (6) requires disclosure of information about the nature of a government’s AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 88

In April 2018, the GASB issued Statement No. 88 – *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position

1. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in District net position during the reporting period. Actual results could differ from those estimates.

2. Cash and Cash Equivalents

The District has adopted an investment policy directing the Administrative Finance Manager, subject to review and approval by the Finance Committee and the Board to deposit and invest funds in financial institutions in accordance with the California Government Code section 53600 and 53601.

Substantially all of the District's cash is invested in interest bearing cash accounts. The District considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

3. Investments and Investment Policy

The District has adopted an investment policy directing the Administrative Finance Manager to deposit and invest funds in financial institutions in accordance with California Government Code section 53600. The investment policy applies to all financial assets and investment activities of the District.

Changes in fair value that occur during a fiscal year are recognized as unrealized gains or losses and reported for that fiscal year. Investment income comprises interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

4. Fair value measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset, as follows:

- **Level 1** – Valuation is based on quoted prices in active markets for identical assets.
- **Level 2** – Valuation is based on directly observable and indirectly observable inputs. These inputs are derived principally from or corroborated by observable market data through correlation or market-corroborated inputs. The concept of market-corroborated inputs incorporates observable market data such as interest rates and yield curves that are observable at commonly quoted intervals.
- **Level 3** – Valuation is based on unobservable inputs where assumptions are made based on factors such as prepayment rates, probability of defaults, loss severity and other assumptions that are internally generated and cannot be observed in the market.

5. Property Taxes and Special Assessments

The County of Riverside Assessor's Office assesses all real and personal property within the County each year. The County of Riverside Tax Collector's Office bills and collects the District's share of property taxes and assessments. The County of Riverside Treasurer's Office remits current and delinquent property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article 13A of the State Constitution at one percent (1%) of countywide assessed valuations.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

5. Property Taxes and Special Assessments, continued

Property taxes and special assessments receivable at year-end are related to property taxes collected by the County of Riverside which have not been credited to the District's cash balance as of June 30th. The property tax calendar is as follows:

Lien date	March 1
Levy date	July 1
Due dates	November 1 and March 1
Collection dates	December 10 and April 10

6. Materials and Supplies Inventory

Materials and supplies inventory consists primarily of pesticides and chemicals used to eradicate certain vectors. Inventory is valued at cost using a weighted average cost method. Inventory items are charged to expense when the inventories are actually used or during the period of benefit.

7. Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

8. Capital Assets

Capital assets are recorded in the government-wide financial statements. Included in capital assets are land, structures and improvements, office equipment, and other operational equipment. District policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated assets are recorded at acquisition value rather than fair market value at the date of donation. Capital outlay is recorded as expenditures of the General Fund and as assets in the government-wide financial statements to the extent the District's capitalization threshold is met. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

- Structures and improvements – 10 to 40 years
- Office equipment – 3 to 10 years
- Equipment – 3 to 20 years

9. Deferred Outflows of Resources

The statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of resources applicable to future periods and therefore will *not* be recognized as an outflow of resources (expenditure) until that time. The District has the following items that qualify for reporting in this category:

Post-Employment Benefits Other Than Pensions (OPEB)

- Deferred outflow which is equal to the employer contributions made after the measurement date of the net other-postemployment benefits liability. This amount will be amortized-in-full against the net other-postemployment benefits liability in the next fiscal year.

Pensions

- Deferred outflow which is equal to the employer contributions made after the measurement date of the net pension liability. This amount will be amortized-in-full against the net pension liability in the next fiscal year.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

9. Deferred Outflows of Resources, continued

Pensions, continued

- Deferred outflow for the net differences between the actual and expected experience which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.
- Deferred outflow for the net changes in assumptions which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.
- Deferred outflow for the net difference in projected and actual earnings on investments of the pension plans fiduciary net position. This amount is amortized over a 5 year period.
- Deferred outflow for the net change due to differences in the changes in proportions of the net pension liability which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.

10. Compensated Absences

Accrued Vacation – It is the District's policy to allow vacation leave to accrue based on employment class, union representation and years of service. Vacation time may accumulate from year to year to a maximum of 50 days (400 hours) for supervisors and 40 days (320 hours) for all other employees. A non-current amount of vacation liability will be recorded as fund expenditures in the year in which they are paid or become due on demand to separated employees.

Accrued Sick Leave – It is the District's policy to allow sick leave to accrue based on employment class and union representation. Employees may accumulate up to 60 days (480 hours) of sick leave, unless otherwise specified in their union representation memorandums or individual employment contracts. Employees who are entitled to accumulate 60 days (480 hours) and accrue an excess of 50 days (400 hours) during the year shall be compensated for each hour at fifty percent (50%) of the current pay rate during the eligible cash out periods of June and December. If the maximum is reached, an employee can no longer accrue any additional hours. The hours shall be removed from the books at the end of the pay period in which an excess was accrued or an employee has been compensated. Upon official retirement from District service, the employee shall be compensated for accumulated sick leave hours at fifty percent (50%) of the employee's current rate of pay, or be eligible to convert the accumulated sick leave hours into CalPERS service credits, if the employee has been employed for the total amount of years specified in their union representation memorandums or individual employment contracts.

11. Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Health Plan and additions to/deductions from the District's fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, the District recognizes benefit payments when due and payable in accordance with benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

11. Postemployment Benefits Other than Pensions (OPEB), continued

GASB 75 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following time frames are used:

- Valuation Date: June 30, 2017
- Measurement Date: June 30, 2018
- Measurement Period: July 1, 2017 to June 30, 2018

12. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and addition to/deduction from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

- Valuation Date: June 30, 2017
- Measurement Date: June 30, 2018
- Measurement Period: July 1, 2017 to June 30, 2018

13. Deferred Inflows of Resources

The statement of net position will sometimes report a separate section for deferred inflows of resources. This financial statement element, *deferred inflows of resources*, represents an acquisition of resources applicable to future periods and therefore will *not* be recognized as an inflow of resources (revenue) until that time. The District has the following items that qualify for reporting in this category:

Post-Employment Benefits Other Than Pensions (OPEB)

- Deferred inflow for the net difference in projected and actual earnings on investments of the pension plans fiduciary net position. This amount is amortized over a 5 year period.

Pensions

- Deferred inflow for the net differences between the actual and expected experience which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.
- Deferred inflow for the net difference in actual and proportionate share of employer contribution and net changes in proportion which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.
- Deferred inflow for the net change due to differences in the changes in proportions of the net pension liability which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

14. Net Position

The financial statements utilize a net position presentation. Net position is categorized as follows:

- **Net Investment in Capital Assets** – This component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding debt outstanding against the acquisition, construction or improvement of those assets.
- **Restricted for Debt Service** – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Position** – This component of net position consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the *net investment in capital assets* or *restricted component of net position*.

15. Self-Insurance

The District is a member of the Vector Control Joint Powers Authority which was formed to provide member districts with general liability, auto liability, errors and omission, and employment risk management agency (ERMA), as well as, worker's compensation coverage.

16. Claims Payable

The District's policy is to record a liability for litigation, judgments and claims when it is probable that an asset has been impaired, or a liability has been incurred prior to year-end and the probable amount of loss (net of any insurance coverage) can be reasonably estimated.

17. Fund Balance

The financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable fund balance** – amounts that cannot be spent because they are either (a) not spendable in form, or (b) legally or contractually required to be maintained intact.
- **Restricted fund balance** – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions enabling legislation.
- **Committed fund balance** – amounts that can only be used for specific purposes determined by formal action of the District's highest level of decision-making authority (the Board of Trustees) and that remain binding unless removed in the same manner. The formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is through resolution.
- **Assigned fund balance** – amounts that are constrained by the District's intent to be used for specific purposes. The Board of Trustees is authorized to assign amounts to a specific purpose, which was established by the governing body in [state policy, resolution, ordinance, etc.]

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

17. Fund Balance, continued

- **Unassigned fund balance** – the residual classification for the District’s general fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Board of Trustees established, modifies or rescinds fund balance commitments and assignments by passage of an ordinance or resolution. This is done through adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, followed by the unrestricted, committed, assigned and unassigned resources as they are needed.

Fund Balance Policy

The District believes that sound financial management principles require that sufficient funds be retained by the District to provide a stable financial base at all times. To retain this stable financial base, the District needs to maintain an unrestricted fund balance in its funds sufficient to fund cash flows of the District and to provide financial reserves for unanticipated expenditures and/or revenue shortfalls of an emergency nature. Committed, assigned and unassigned fund balances are considered unrestricted.

The purpose of the District’s fund balance policy is to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unpredicted one-time expenditures.

18. Budget

The District follows specific procedures in establishing the budgetary data reflected in the financial statements. Each year, the District’s General Manager and Administrative/Finance Manager prepare and submit an operating budget to the Board of Trustees for the General Fund no later than June of each year. The basis used to prepare the budget does not differ substantially from the modified accrual basis of accounting. The adopted budget becomes operative on July 1. The Board of Trustees must approve all supplemental appropriations to the budget and transfers between major accounts. The District’s annual budget is presented as a balances budget (inflows and reserves equal outflows and reserves) adopted for the General Fund at the detailed expenditure-type level.

The District presents a comparison of the annual budget to actual results for the General Fund at the functional expenditure-type major object level for financial reporting purposes. The budgeted expenditure amounts represent the adopted budget. No Board approved supplemental appropriations were made. The budgeted revenue amounts represent the adopted budget as originally approved.

19. Reclassification

The District has reclassified certain prior year information to conform to current year presentations.

(2) Cash and Cash Equivalents

Cash and cash equivalents as of June 30 are classified in the accompanying financial statements as follows:

	2019	2018
Cash and cash equivalents	\$ 13,343,597	13,026,038

Cash and cash equivalents as of June 30 consist of the following:

	2019	2018
Petty cash	\$ 2,000	2,000
Deposits held with financial institutions	88,141	99,327
Investments	13,253,456	12,924,711
Total	\$ 13,343,597	13,026,038

As of June 30, the District's authorized investments had the following maturities:

	2019	2018
Deposits held with Local Agency Investment Fund (LAIF)	173 days	193 days
Deposits held with Riverside County Pooled Investment Fund (RCPIF)	383 days	431 days
Deposits held with CalTrust Medium Term Fund	788 days	763 days

Authorized Deposits and Investments

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk credit risk and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. Treasury Obligations	5 years	50%	None
U.S. Agency Obligations	5 years	50%	None
State Obligations - CA and Others	5 years	30%	None
CA Local Agency Obligations	5 years	30%	None
Joint Powers Authority Pool	None	30%	None
Negotiable Certificates of Deposit	5 years	30%	None
CD Placement Service	5 years	30%	None
Money market/passbook savings/demand deposits	None	20%	None
Medium Term Notes	5 years	30%	None
Mortgage Pass-Through Securities	5 years	20%	None
California Local Agency Investment Fund (LAIF)	N/A	75%	None
Riverside County Pooled Investment Funds	None	75%	None

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits, or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits:

The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

Of the bank balance, up to \$250,000 is federally insured and the remaining balance is collateralized, in accordance with the Code; however, the collateralized securities are not held in the District's name.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Code and the District's investment policy contain legal and policy requirements that would limit the exposure to custodial credit risk for investments.

With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

Investments at June 30, 2019, consisted of the following:

<u>Investment Type</u>	<u>Total</u>	<u>Remaining Maturity 12 Months Or Less</u>
Local Agency Investment Fund (LAIF)	\$ 6,397,068	6,397,068
Caltrust Medium Term Investment Fund	511,806	511,806
Money market funds	956,867	956,867
Riverside County Pooled Investment Fund (RCPIF)	5,387,715	5,387,715
Total	\$ 13,253,456	13,253,456

Investments at June 30, 2018, consisted of the following:

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The longer the maturity an investment has the greater its fair value has sensitivity to changes in market interest rates. The District's investment policy follows the Code as it relates to limits on investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

Credit ratings of investments as of June 30, 2019, were as follows:

<u>Investment Type</u>	<u>Total</u>	<u>Minimum legal rating</u>	<u>Exempt or Not Rated</u>
Local Agency Investment Fund (LAIF)	\$ 6,397,068	N/A	6,397,068
Caltrust Medium Term Investment Fund	511,806	N/A	511,806
Money market funds	956,867	N/A	956,867
Riverside County Pooled Investment Fund (RCPIF)	<u>5,387,715</u>	N/A	<u>-</u>
Total	\$ <u>13,253,456</u>		<u>7,865,741</u>

Credit ratings of investments as of June 30, 2018, were as follows:

<u>Investment Type</u>	<u>Total</u>	<u>Minimum legal rating</u>	<u>Exempt or Not Rated</u>
Local Agency Investment Fund (LAIF)	\$ 6,244,488	N/A	6,244,488
Certificates-of-deposit	491,606	N/A	491,606
Money market funds	817,535	N/A	817,535
Riverside County Pooled Investment Fund (RCPIF)	<u>5,371,082</u>	N/A	<u>-</u>
Total	\$ <u>12,924,711</u>		<u>7,553,629</u>

Concentration of Credit Risk

The District's investment policy contains no limitations on the amounts that can be invested in any one issuer as beyond that stipulated by the California Government Code. There were no investments in any one issuer (other than for U.S. Treasury securities, mutual funds, and external investment pools) that represented 5% or more of total District's investment at June 30, 2019.

(2) Cash and Cash Equivalents, continued

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The pool portfolio is invested in a manner that meets the maturity, quality, diversification and liquidity requirements set forth by GASB 79 for external investment pools that elect to measure, for financial reporting purposes, investments at amortized cost. LAIF does not have any legally binding guarantees of share values. LAIF does not impose liquidity fees or redemption gates on participant withdrawals.

Riverside County Treasurer Fund

The Riverside County Pooled Investment Fund (RCPIF) is a pooled investment fund program governed by the County of Riverside Board of Supervisors and administered by the County of Riverside Treasurer and Tax Collector. Investments in RCPIF are highly liquid as deposits and withdrawals can be made at any time without penalty. RCPIF does not impose a maximum investment limit.

The County of Riverside's bank deposits are either Federally insured or collateralized in accordance with the California Government Code. Pool detail may be obtained from the County of Riverside Administrative Office – 4080 Lemon Street, 4th Floor – Capital Markets – Riverside, CA 92506, or the Treasurer and Tax Collector's office website at www.countytreasurer.org.

Fair Value Measurements

Investments measured at fair value on a recurring and non-recurring basis, are as follows:

Investments at June 30, 2019:

<u>Investment Type</u>	<u>Total</u>	<u>Fair Value Measurements</u>	
		<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>

(4) Compensated Absences

Compensated absences comprise of unpaid vacation, and sick leave which is accrued as earned. The District's liability for compensated absences is determined annually.

The changes to compensated absences balances for 2019, were as follows:

<u>Balance 2018</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance 2019</u>	<u>Due Within One Year</u>	<u>Due in more than one year</u>
\$ 662,567	148,140	(121,672)	689,035	275,614	413,421

The changes to compensated absences balances for 2018, were as follows:

<u>Balance 2017</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance 2018</u>	<u>Due Within One Year</u>	<u>Due in more than one year</u>
\$ 604,007	154,576	(96,016)	662,567	265,027	397,540

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(5) Other Post-Employment Benefits

Plan Description

The District’s defined benefit OPEB plan consists of the California Employers’ Retiree Benefit Trust (CERBT). The CERBT receives contributions from the District and other participating employers and establishes separate employer prefunding accounts to pay for health care or other post-employment benefits in accordance with the terms of the participating employers’ plans. Contributions are voluntarily determined by the District’s own funding schedule, and there are no long-term contracts for contributions to the plan. As such, contributions to the CERBT are elective and not required. The CERBT is an agent multiple-employer plan administered by the California Public Employees’ Retirement System (CalPERS). CalPERS issues a publicly available financial report that can be obtained at www.calpers.ca.gov.

Benefits Provided

The District provides retiree medical coverage provided by CalPERS (a third-party issuer) as permitted under the Public Employees’ Medical and Hospital Care Act (PEMCHA). The Plan offers post-employment medical benefits to retired employees who satisfy the eligibility rules (50 years old, 5 years of service to the District and 10-years of CalPERS eligible service). Dependents are also eligible to receive benefits. Retirees may enroll in any plan available through the District’s CalPERS medical program. The contribution requirements of Plan members and the District are established and maybe amended by the Board of Directors.

Vesting requires at least 5 years of CalPERS total service. The surviving spouse of an eligible retiree who elected spouse coverage under CalPERS is eligible for the employer contribution upon death of the retiree. A retiree may not elect to be covered if retiree health coverage is available less expensively from another source or the retiree is covered under a spouse’s plan.

Employee Covered By Benefit Terms

At June 30 the following employees were covered by the benefit terms:

	2019	2018
Participating active employees	56	56
Inactive employees or beneficiaries currently receiving benefit payments	5	5
Total plan membership	61	61

Contributions

The contribution requirements of Plan members and the District are established and may be amended by the District’s Board of Directors. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2019 and 2018, the District’s “pay as you go” cost of providing retiree health benefits amounted to \$40,542, respectively. The “pay as you go” cost is the cost of benefits for current retirees.

Discount Rate

The discount rate to measure the total OPEB liability was 7%, which is based on assumed long-term return on plan assets assuming 100% funding through CERBT. The projection of cash flows used to determine the discount rate assumed that liabilities and cash flow will vary based on the number and demographic characteristics of employees and retirees. The discount rate was set by using historic 30 year real rates of return for each asset class along with the assumed long-term inflation assumption. Expected investment return was offset with investment expenses of 25 basis points.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(5) Other Post-Employment Benefits, *continued*

Deferred OPEB Outflows (Inflows) of Resources

As of June 30, 2019 and 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Description</u>	<u>2019</u>		<u>2018</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
OPEB contributions subsequent to measurement date	\$ 312,420	-	312,420	-
Net differences between projected and actual earnings on plan investments	-	(10,720)	-	-
Total	\$ <u>312,420</u>	<u>(10,720)</u>	<u>312,420</u>	<u>-</u>

As of June 30, 2019 and 2018, the District reported deferred outflows of resources related to employer OPEB contributions subsequent to measurement date in the amount of \$312,420, respectively. The employer OPEB contributions in the amount of \$312,420 will be recognized as a reduction of the net OPEB liability in the fiscal year ended June 30, 2020.

For the fiscal years ended June 30, 2019 and 2018, the District recognized OPEB expense of \$161,810 and \$149,524, respectively.

Actuarial Assumptions

The District's net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

The total OPEB liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial cost method	Entry Age Normal cost method in accordance with the requirements of GASB Statement No. 75
Inflation	2.75% per annum
Salary increases	2.75% per annum, in aggregate
Mortality	2014 CalPERS Active Mortality for Miscellaneous Employees.
Retirement rates	2009 CalPERS 2.0% @ 60 Rates for Miscellaneous Employees (adjusted to reflect minimum retirement age of 52 for those hired starting in 2013).
Service requirement	Per the service schedule contained in California Government Code Section 22893.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(5) Other Post-Employment Benefits, continued

Actuarial Assumptions, continued

Discount rate	7% per year net of expenses; the discount rate is based on the assumed long-term return on plan assets assuming 100% funding through CERBT, which is 30 year real rates of return for each asset class along with assumed long-term inflation assumption to set the discount rate. The expected investment return is offset by investment expenses of 25 basis points.
Healthcare cost trend rates	4.0% for HMO and PPO, respectively as of June 30, 2018, and is based on a long-term trend assumption that the average increase over time cannot continue to outstrip general inflation by a wide margin.

Mortality rates were based on the 2014 CalPERS Active Mortality for Miscellaneous Employees.

The actuarial assumptions used in the June 30, 2017, valuation were based on the 2014 experience study of the California Public Employees Retirement System using data from 1997 to 2011. The representative mortality rates were those published by CalPERS in their 2014 study, adjusted to back out 20 years of Scale BB to central year 2008.

The long-term expected rate of return on OPEB plan investments was determined using a geometric method in which it reflects the return for each asset class for the portfolio average. Rolling periods of time in combination to appropriately reflect correlation between asset classes are performed.

The assumed asset allocation and assumed gross return for each major class are summarized in the following table:

<u>Asset Class</u>	<u>Percentage of Portfolio</u>	<u>Assumed Gross Return</u>
US Large Cap	43.00%	7.80%
US Small Cap	23.00%	7.80%
Long-Term Corporate Bonds	12.00%	5.30%
Long-Term Government Bonds	6.00%	4.50%
Global Equities	5.00%	7.80%
REITs	8.00%	7.80%
Commodities	3.00%	7.80%
Total	<u>100.00%</u>

District's Net OPEB liability	\$ 255,877	715,923	1,265,544

As of June 30, 2018, the following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Healthcare Cost Trend Rates (3% HMO and PPO)	Healthcare Cost Trend Rates (4% HMO and PPO)	Healthcare Cost Trend Rates (5% HMO and PPO)
District's Net OPEB liability	\$ 488,905	877,253	1,330,954

Payable to the OPEB Plan

The District had no outstanding amount of contributions to the CERBT required for the year ended June 30, 2018, respectively.

June 30, 2019 and 2018

(6) Defined Benefit Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plan, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS).

Benefit provisions under the Plan are established by State statute and District's resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: The Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect January 1, 2013. The new legislation closed the District's CalPERS 2.0% at 60 Risk Pool Retirement Plan to new employee entrants effective December 31, 2012. All employees hired after January 1, 2013 are eligible for the District's CalPERS 2.0% at 62 Retirement Plan under PEPRA.

The Plans' provision and benefits in effect at June 30, 2019, are summarized as follows:

	Miscellaneous Risk Pool	
	Classic	PEPRA
Hire date	Prior to January 1, 2011	On or after January 1, 2013
Benefit formula	2.0% @ 60	2.0% @ 62
Benefit vesting schedule	5 service years	5 service years
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 63	52 - 67
Monthly benefits, as a % of eligible compensation	1.092% to 2.418%	1.0% to 2.5%
Required employee contribution rates	7.000%	6.250%
Required employer contribution rates	8.099%	6.842%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates, for all public employers, be determined on an annual basis by the actuary and shall be effective on July 1 following notice of the change in rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Coachella Valley Mosquito Vector Control District

June 30, 2019 and 2018

(6) Defined Benefit Pension Plan, continued

Contributions

For the fiscal year ended June 30 the contributions recognized as part of pension expense for the Plan was as follows:

	2019	2018
Contributions – employer	\$ <u>483,461</u>	<u>417,763</u>

Net Pension Liability

As of June 30 the District reported net pension liabilities for its proportionate share of the net pension liability of the Plan as follows:

	2019	2018
Proportionate share of net pension liability	\$ <u>1,585,309</u>	<u>1,763,285</u>

The District’s net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2018 and 2017 (the measurement dates), and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 and 2016 (the valuation dates), rolled forward to June 30, 2019 and 2018, respectively, using standard update procedures. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District’s proportionate share of the pension liability for the Plan as of the measurement date June 30, 2019 was as follows:

	Miscellaneous
Proportion – June 30, 2018	0.01778%
Proportion – June 30, 2019	<u>0.01645%</u>
Increase in proportionate share	<u>-0.00133%</u>

The District’s proportionate share of the pension liability for the Plan as of the measurement date June 30, 2018 was as follows:

	Miscellaneous
Proportion – June 30, 2017	0.01609%
Proportion – June 30, 2018	<u>0.01778%</u>
Increase in proportionate share	<u>0.00169%</u>

Deferred Pension Outflows (Inflows) of Resources

For the fiscal years ended June 30, 2019 and 2018, the District recognized pension expense (income) of \$655,896 and \$75,096, respectively.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*

(6) Defined Benefit Pension Plan, continued

Deferred Pension Outflows (Inflows) of Resources

As of June 30, 2019 and 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>2019</u>		<u>2018</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions subsequent to measurement date	\$ 483,461	-	417,763	-
Differences between actual and expected experience	40,122	-	-	(61,419)
Changes in assumptions	136,420	-	528,226	-
Net differences between projected and actual earnings on plan investments	7,836	-	129,324	-
Differences between actual contribution and proportionate share of contribution	-	(107,886)	-	(96,458)
Net adjustment due to differences in proportions of net pension liability	<u>474,809</u>	<u>-</u>	<u>467,737</u>	<u>-</u>
Total	<u>\$ 1,142,648</u>	<u>(107,886)</u>	<u>1,543,050</u>	<u>(157,877)</u>

As of June 30, 2019 and 2018, the District reported \$483,461 and \$417,763, respectively as deferred outflows of resources related to contributions subsequent to measurement date and will be recognized as a reduction of the net pension liability for the year ended June 30, 2020 and was recognized as a reduction of the net pension liability for the year ended June 30, 2019.

At June 30, 2019, District recognized other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as pension expense as follows:

<u>Fiscal Year</u>	<u>Deferred Net</u>
<u>Ending</u>	<u>Inflows of</u>
<u>June 30,</u>	<u>Resources</u>
2019	\$ 426,699
2020	263,494
2021	(110,556)
2022	(28,336)
2023	-
Remaining	-

(6) Defined Benefit Pension Plan, continued

Actuarial assumptions

The total pension liability in the measurement date June 30, 2018, actuarial valuation report was determined using the following actuarial assumptions:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial cost method	Entry Age Normal in accordance with the requirements of GASB Statement No. 68
Actuarial assumptions:	
Discount rate	7.15%
Inflation	2.50%
Salary increases	Varies by Entry Age and Service
Mortality Rate Table*	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

* The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 Experience Study report (based on CalPERS demographic data from 1997 to 2011) available online at <https://www.calpers.ca.gov/docs/forms-publications/calpers-experience-study-2014.pdf>.

Discount Rate

The discount rates used in the actuarial valuations to measure the total pension liability as of June 30, 2018 and 2017, reflect the long-term expected rates of return. The discount rates used to measure the total pension liability as of June 30, 2018 and 2017, was 7.15%, respectively. The financial reporting discount rates are not adjusted for administrative expenses and are consistent with the funding discount rates at the end of the three-year funding discount rate phase-in period.

To determine whether the municipal bond rate should be used in the calculation of the discount rate, the amortization and smoothing periods adopted by CalPERS in 2013 were used. The crossover test was performed for a miscellaneous agent plan and a safety agent plan selected as being more at risk of failing the crossover test and resulting in a discount rate that would be different from the long-term expected rate of return on pension investments.

Based on the testing of the plans, the tests revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the PERF C.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(6) Defined Benefit Pension Plan, continued

Discount Rate, continued

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The tables below reflect the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

As of June 30, 2019, the target allocation and the long-term expected real rate of return by asset class were as follows:

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1-10*</u>	<u>Real Return Year 11+**</u>
Global Equity	50.0%	4.80%	5.98%
Global Fixed Income	28.0	1.00	2.62
Inflation Sensitive	0.0	0.77	1.81
Private Equity	8.0	6.30	7.23
Real Asset	13.0	3.75	4.93
Infrastructure and Forestland	0.0	0.00	0.00
Liquidity	1.0	0.00	(0.92)
Total	<u>100.0%</u>		

As of June 30, 2018, the target allocation and the long-term expected real rate of return by asset class were as follows:

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1-10*</u>	<u>Real Return Year 11+**</u>
Global Equity	47.0%	4.90%	5.38%
Global Fixed Income	19.0	0.80	2.27
Inflation Sensitive	6.0	0.60	1.39
Private Equity	12.0	6.60	6.63
Real Estate	11.0	2.80	5.21
Infrastructure and Forestland	3.0	3.90	5.36
Liquidity	2.0	(0.40)	(0.90)
Total	<u>100.0%</u>

(6) Defined Benefit Pension Plan, continued

Sensitivity of the Proportionate Share of Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net position liability for the Plan, calculated using the discount rate, as well as what the District's proportional share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

As of June 30, 2019, the District's net pension liability at the current discount rate, using a discount rate that is one-percentage point lower, and using a discount rate that is one-percentage point higher, are as follows:

	Discount Rate - 1%	Current Discount Rate	Discount Rate + 1%
	<u>6.15%</u>	<u>7.15%</u>	<u>8.15%</u>
District's Net pension liability	\$ <u>3,603,777</u>	<u>1,585,309</u>	<u>(80,904)</u>

As of June 30, 2018, the District's net pension liability at the current discount rate, using a discount rate that is one-percentage point lower, and using a discount rate that is one-percentage point higher, are as follows:

	Discount Rate - 1%	Current Discount Rate	Discount Rate + 1%
	<u>6.15%</u>	<u>7.15%</u>	<u>8.15%</u>
District's Net pension liability	\$ <u>3,648,194</u>	<u>1,763,285</u>	<u>202,169</u>

Payable to the Pension Plan

At June 30, 2018, the District reported no payables for the outstanding amount of contribution to the pension plan.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in separately issued CalPERS financial reports. See pages 58 through 59 for the Required Supplementary Schedules.

(7) Pollution Remediation Obligation

In January 2007, the District hired EAR Engineering, Construction & Support Services (EAR) to test the soil at the District's Thermal property. It was determined that due to early District control practices an environmental contamination of the soil in the parking lot area of the facility. The pollution found was DDT (Dichlorodiphenyltrichloroethane) which is an insecticide that is found in a broad range of agricultural and nonagricultural applications. The chemical was banned in the United States and also in many parts of the world in 1972. The District was ordered to remediate the DDT found in the soil at the Thermal property. EAR recommended that the District perform soil capping since the DDT has very low degradation capacity, and low solubility, thus it is more likely that the DDT will remain in the soils under natural conditions. In August 2008, the District hired D&L Wheeler Enterprise to perform the soil capping of the Thermal property. The cost of the soil capping was \$457,749 in fiscal year 2009. The District is required to add a one-inch layer of asphalt to the capping every 10 years until the DDT pollution is minimized.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(7) Pollution Remediation Obligation, continued

In April 2016, the District, through a third party environmental consultant, will evaluate the current status of the site. By the end of 2018, the District anticipates that it will issue a Request for Proposal for a contractor to repave the capped area and continue the asphalt cap into the northeast uncapped area of the site. The cost of the recapping is an estimated at \$150,000 for every 10 years for an estimated 143 years. The estimated pollution remediation liability is \$2,100,000 as of June 30, 2019 and 2018, respectively.

(8) Net Position

Unrestricted net position as of June 30 is categorized as follows:

	2019	As Restated 2018
Nonspendable net position:		
Materials and supplies inventory	\$ 510,872	532,129
Prepayments and deposits	1,102,709	1,054,997
Total nonspendable net position	1,613,581	1,587,126
Spendable net position is designated as follows:		
Six-month operating reserve	4,558,406	4,882,897
Emergency services	4,103,640	3,328,774
Future healthcare liabilities	715,924	877,253
Total spendable net position	9,377,970	9,088,924
Total unrestricted net position	\$ 10,991,551	10,676,050

Reserves

Six-month operating reserve – comprised of reserve funds to fund operations of the District for the period from July 1 to December 31 each year as the first scheduled property tax payment is due on December 10th of each year. The County of Riverside Treasurer-Tax Collector disburses the majority of the December 10th collection to the District at the end of December each year.

Emergency reserve – comprised of reserve funds in the case the District is faced with an immediate need to combat the spread of an aerial or vector caused disease.

Other post-employment benefits payable reserve – comprised of funds that are reserved for the ending balance of other post-employment benefits.

Capital assets construction and replacements reserve – comprised of funds that are reserved for the replacement of District capital assets and/or the construction of future District capital assets as needed on a pay-go basis.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(9) Fund Balance

Fund balances are presented in the following categories: nonspendable, restricted, committed, assigned, and unassigned (See Note 1.D.17 for a description of these categories). A detailed schedule of fund balances and their funding composition at June 30 were as follows:

<u>Description</u>	<u>2019</u>	<u>2018</u>
Nonspendable:		
Materials and supplies inventory	\$ 510,872	532,129
Prepaid expenses and deposits	<u>1,102,709</u>	<u>1,054,997</u>
Subtotal nonspendable	<u>1,613,581</u>	<u>1,587,126</u>
Committed:		
Compensated absences	689,035	662,567
Reserve for Public Health Emergency	<u>4,103,640</u>	<u>3,328,774</u>
Sub-total committed	<u>4,792,675</u>	<u>3,991,341</u>
Assigned:		
Reserve for Operations	5,433,269	5,991,793
Reserve for Replacements	2,189,907	1,934,049
Future healthcare liabilities	<u>715,924</u>	<u>877,253</u>
Sub-total assigned	<u>8,339,100</u>	<u>8,803,095</u>
Total fund balance	<u>\$ 14,745,356</u>	<u>14,381,562</u>

(10) Prior Period Adjustments

Adjustment to Pension Liability Related Deferrals

In the fiscal year 2019, the District determined that two deferrals related to the net pension liability were understated for June 30, 2018. The first deferral for the net differences between employer's contributions and proportionate share of contributions to the Plan was reported as a deferred inflow in the amount \$69,726, which should have been reported in the amount \$96,458. The next deferral for the net changes in employers proportions to the Plan was reported as a deferred outflow in the amount \$209,459, which should have been reported in the amount \$467,737. As a result, an adjustment to prior year's operations was recorded for the fiscal year ended June 30, 2018.

Net OPEB Liability – GASB 75 Implementation

In fiscal year 2018, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 75. As a result, the District recognized net OPEB liability and remove the net OPEB obligation associated with GASB 45 as of June 30, 2017, in the amount of \$1,075,282 and \$1,032,754, respectively. The District recorded a prior period adjustment to reclassify prior year's employer OPEB Contribution from expense to deferred outflows of resources of \$347,551.

Previously recorded net position of \$20,133,127 has been restated to \$21,038,150 as of June 30, 2017. In addition, the effect of the implementation of GASB 75 is recorded as an adjustment to the beginning net position at July 1, 2017.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(10) Prior Period Adjustments

The effect of the prior period adjustments are summarized as follows:

Net position at June 30, 2017, as previously stated		\$ 20,733,127
Adjustment to Pension Liability Deferrals:		
Effect of adjustment to differences between employer's contributions and proportionate share of contributions	\$ (26,731)	
Effect of adjustment to change in employer's proportion	<u>258,278</u>	
Total adjustment to net position		231,547
Change in net position, as previously reported		<u>132,177</u>
Total change in net position, as restated		<u>363,724</u>
Net OPEB Liability - GASB 75 Implementation:		
Effect of adjustment to record net OPEB liability	\$ (1,075,282)	
Effect of adjustment to remove net OPEB liability associated with GASB 45	1,032,754	
Effect of adjustment to record deferred OPEB outflows	<u>347,551</u>	
Total adjustment to net position		<u>305,023</u>
Net position at July 1, 2017, as restated		<u>\$ 21,401,874</u>

(11) Deferred Compensation Savings Plan

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program (Program). The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District's general creditors. Market value of all plan assets held in trust at June 30, 2019 and 2018, was \$3,158,855 and \$2,788,685, respectively.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the statement of net position.

(12) Risk Management

The District is exposed various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District, as a member of the Vector Control Joint Powers Authority (VCJPA) has purchased various insurance policies to manage the potential liabilities that may occur from the previously named sources. The VCJPA is a consortium of 33 mosquito abatement and/or vector control districts in the State of California. VCJPA's purpose is to arrange and administer programs of self-insured losses and to purchase excess insurance coverage.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(12) Risk Management, continued

The day-to-day business is handled by a risk management group employed by the VCJPA. At June 30, 2019, the District participated in the liability and property programs of the VCJPA as follows:

- General and auto liability, public officials and employees' errors and omissions.
- Workers' compensation
- Property damage
- Auto physical damage
- Business travel
- Group fidelity
- Underground storage tank

The District is covered for the first \$1,000,000 of each general liability claim and \$500,000 of each workers' compensation claim through the VCJPA. The District may receive dividends and has the obligation to pay assessments, if declared by the Board, based on a formula which, among other expenses, charges the District's account for liability losses and workers' compensation losses which fall within the District's self-insured retentions (SIR) for each of the program years the District has participated as a member, when those program years are adjusted. The liability SIR for the 2019 program year is \$25,000, and the workers' compensation SIR for the 2019 program year is \$500,000.

The VCJPA participates in an excess pool which provides general liability coverage from \$1,000,001 to \$14,000,000 and in an excess pool which provides employers liability and workers' compensation coverage from \$500,001 to \$5,000,000 and also provides workers' compensation coverage above \$5,000,000 up to the statutory limit, through a combination of reinsurance and insurance. Financial statement information for the VCJPA can be obtained at 1750 Creekside Oaks Drive, Suite 200 Street, Sacramento, CA 95833 or (800) 541-4591, www.vcjpa.org.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the year ended June 30, 2019. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payables as of June 30, 2019.

(13) Governmental Accounting Standards Board Statements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2019, that have effective dates that may impact future financial presentations.

Governmental Accounting Standards Board Statement No. 84

In January 2017, the GASB issued Statement No. 84 – *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

Coachella Valley Mosquito Vector Control District
Notes to the Basic Financial Statements, *continued*
June 30, 2019 and 2018

(13) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued

Governmental Accounting Standards Board Statement No. 84, continued

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 87

In June 2017, the GASB issued Statement No. 87 – *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 89

In June 2018, the GASB issued Statement No. 89 – *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively.

June 30, 2019 and 2018

(13) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued

Governmental Accounting Standards Board Statement No. 90

In August 2018, the GASB issued Statement No. 90 – *Majority Equity Interests – (An Amendment of GASB Statements No. 14 and No. 61)*. The objectives of this Statement are to improve the consistency and comparability of reporting a government’s majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government’s holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 91

In August 2018, the GASB issued Statement No. 91 – *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures.

This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. In those arrangements, capital assets are constructed or acquired with the proceeds of a conduit debt obligation and used by third-party obligors in the course of their activities. Payments from third-party obligors are intended to cover and coincide with debt service payments. During those arrangements, issuers retain the titles to the capital assets. Those titles may or may not pass to the obligors at the end of the arrangements.

This Statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers’ conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

(13) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued

Governmental Accounting Standards Board Statement No. 91, continued

The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

(14) Commitments and Contingencies

Grant Awards

Grant funds received by the District are subject to audit by the grantor agencies. Such audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. Management of the District believes that such disallowances, if any, would not be significant.

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

(15) Subsequent Events

Events occurring after June 30, 2019, have been evaluated for possible adjustment to the financial statements or disclosure as of November 12, 2019, which is the date the financial statements were available to be issued. The District is not aware of any further subsequent events that would require recognition or disclosure in the financial statements.

(1) Budgets and Budgetary Data

The District follows specific procedures in establishing the budgetary data reflected in the financial statements. Each year the District’s General Manager and Administrative Finance Manager prepare and submit an operating budget to the Board of Trustees for the General Fund no later than June of each year. The basis used to prepare the budget does not differ substantially from the modified accrual basis of accounting. The adopted budget becomes operative on July 1. The Board of Trustees must approve all supplemental appropriations to the budget and transfers between major accounts. The District’s annual budget is presented as a balanced budget (inflows and reserves equal outflows and reserves) adopted for the General Fund at the detailed expenditure-type level.

The District presents a comparison of the annual budget to actual results for the General Fund at the functional expenditure-type major object level for financial reporting purposes. The budgeted expenditure amounts represent the adopted budget plus supplemental budget adoptions due to the capital and operating grants that were awarded after the initial budget was adopted.

Coachella Valley Mosquito and Vector Control District
Schedule of OPEB Contributions
For the Year Ended June 30, 2019
Last Ten Years*

Defined Benefit OPEB Plan

Description	2019	2018
OPEB contributions subsequent to measurement date	\$ 312,420	312,420
Total	\$ 312,420	312,420

Notes to Schedule

Valuation date:

**The calculation of an actuarially determined contribution amount was not asked by the District. It was assumed that the District will contribute on an adhoc basis, but in an amount sufficient to fully fund the obligation over a period not to exceed 30 years.

Methods and assumptions used to determine contribution rates:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial cost method	Entry Age Normal cost method in accordance with the requirements of GASB Statement No. 75
Inflation	2.75% per annum
Salary increases	2.75% per annum, in aggregate
Mortality	2014 CalPERS Active Mortality for Miscellaneous Employees.
Retirement rates	2009 CalPERS 2.0% @ 60 Rates for Miscellaneous Employees (adjusted to reflect minimum retirement age of 52 for those hired starting in 2013).
Service requirement	Per the service schedule contained in California Government Code Section 22893.
Discount rate	7% per year net of expenses; the discount rate is based on the assumed long-term return on plan assets assuming 100% funding through CERBT, which is 30 year real rates of return for each asset class along with assumed long-term inflation assumption to set the discount rate. The expected investment return is offset by investment expenses of 25 basis points.
Healthcare cost trend rates	4.0% for HMO and PPO, respectively as of June 30, 2018, and is based on a long-term trend assumption that the average increase over time cannot continue to outstrip general inflation by a wide margin.

* The District has presented information for those years for which information is available until a full 10- year trend is compiled.

2018	267,148,195	8,320,830	(8,546,894)	266,922,131	1.0000
⁽¹⁾ 2019	267,148,195	8,320,830	(8,546,894)	266,922,131	1.0000

Although the District's services encompass a portion of Riverside County, the amounts presented include the entire County's property taxes.

NOTE:

In 1978 the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only re-assessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Trustees
Coachella Valley Mosquito Vector Control District
Indio, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Coachella Valley Mosquito Vector Control (District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprises the District's basic financial statements, and have issued our report thereon dated November 12, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards, continued***

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
